

Fynla Comprehensive Testing Checklist — v0.8.3

Date: 5 March 2026 **Environment:** <https://fynla.org> (production) or <http://localhost:8000> (local) **Login:** chris@fynla.org / Password1! (verification code required)

Pre-Testing Setup

- ☐ `php artisan db:seed` runs cleanly
 - ☐ `./deploy/fynla-org/build.sh` completes without errors
 - ☐ `./vendor/bin/pest` — all tests pass
 - ☐ Dev server running (`./dev.sh`) if testing locally
 - ☐ Test in incognito/private browsing window
-

1. Authentication & Security

Registration

- ☐ Register page loads with hi-res logo and raspberry CTAs
- ☐ Form validates required fields (name, email, password)
- ☐ Password strength requirements enforced
- ☐ Successful registration sends verification code email
- ☐ Verification code modal appears after registration
- ☐ Valid code completes registration and redirects to onboarding
- ☐ Invalid code shows error, allows retry
- ☐ Resend code button works
- ☐ Duplicate email shows appropriate error

Login

- ☐ Login page loads with correct branding (raspberry buttons, eggshell background)
- ☐ Valid credentials proceed to verification code step
- ☐ Invalid credentials show error message
- ☐ Account lockout after repeated failed attempts
- ☐ Verification code entry works correctly
- ☐ Successful login redirects to dashboard
- ☐ "Forgot password" link works

Multi-Factor Authentication (MFA)

- ☐ MFA setup accessible from Security Settings
- ☐ QR code displayed for authenticator app scanning
- ☐ TOTP code verification works during setup
- ☐ Recovery codes generated and displayed
- ☐ MFA required on subsequent logins when enabled
- ☐ Recovery code login works as fallback

- ☐ MFA can be disabled from settings

Password Reset

- ☐ "Forgot password" initiates reset flow
- ☐ Email with verification code sent
- ☐ Code verification step works
- ☐ MFA verification required if MFA enabled
- ☐ New password set successfully
- ☐ Can login with new password

Session Management

- ☐ Session persists across page refreshes
 - ☐ Logout clears session and redirects to landing page
 - ☐ Session timeout after inactivity
 - ☐ Multiple concurrent sessions tracked in Security Settings
-

2. Onboarding Wizard

- ☐ New user redirected to onboarding after registration
 - ☐ Personal information step collects name, DOB, marital status
 - ☐ Spouse details step appears when married/civil partnership selected
 - ☐ Focus area selection step works (multiple selections allowed)
 - ☐ Planning assumptions step shows default values
 - ☐ Each step validates before advancing
 - ☐ Back button returns to previous step
 - ☐ "Skip to Dashboard" modal appears and works
 - ☐ Progress indicator shows current step
 - ☐ Completing onboarding redirects to dashboard
-

3. Dashboard

Layout & Design

- ☐ Page background is warm eggshell (#F7F6F4), not cool grey
- ☐ Navigation bar uses dark logo
- ☐ Footer uses light logo
- ☐ All cards use correct palette colours (no blue, green, red, amber, orange)
- ☐ Raspberry CTAs on all action buttons
- ☐ Violet focus rings on interactive elements

Dashboard Cards

- ☐ Net worth overview card shows total with breakdown
- ☐ Investments overview card shows portfolio value
- ☐ Goals overview card shows progress indicators

- ☐ Actions overview card shows top recommendations
- ☐ Affordability overview card shows budget adequacy
- ☐ Tax optimisation card shows allowance usage
- ☐ Areas to complete card shows missing data prompts
- ☐ Areas to consider card shows suggested focus areas
- ☐ Alerts panel shows relevant notifications
- ☐ Financial Health Overview shows descriptive labels (Good/Fair/Needs attention), NO numeric scores (/100)
- ☐ Widget order is customisable (drag and drop or settings)

Data Accuracy

- ☐ Net worth figure matches sum of all assets minus liabilities
 - ☐ Goal progress percentages are accurate
 - ☐ Recommendation count matches aggregated module recommendations
 - ☐ Tax allowance figures match current tax year (2025/26)
-

4. Navigation

Side Menu

- ☐ Side menu opens and closes correctly
- ☐ Menu sections organised as: Current / Planning / Family
- ☐ All menu items navigate to correct pages
- ☐ Active page highlighted in menu
- ☐ Mobile toggle works on small screens
- ☐ Menu icons display correctly

Navbar

- ☐ Logo links to dashboard
 - ☐ User menu shows profile options
 - ☐ Logout option works
 - ☐ Trial countdown banner shows if applicable
 - ☐ Preview banner shows for preview users
-

5. Net Worth Module

Wealth Summary

- ☐ Total net worth displayed correctly
- ☐ Breakdown by asset class (property, investments, savings, pensions, business, chattels)
- ☐ Liabilities subtracted correctly
- ☐ Joint assets show correct ownership split
- ☐ Asset allocation chart renders

Properties

- ☐ Property list displays all properties
- ☐ Add property form works (main residence, secondary, buy-to-let)
- ☐ Edit property details
- ☐ Delete property with confirmation
- ☐ Property valuation and growth projection
- ☐ Joint ownership fields work correctly
- ☐ SDLT calculator works
- ☐ CGT calculator works for disposal scenarios
- ☐ Rental income tax calculation works for buy-to-let

Mortgages

- ☐ Mortgage list under each property
- ☐ Add mortgage (repayment, interest-only, mixed)
- ☐ Edit mortgage details
- ☐ Delete mortgage
- ☐ Amortisation schedule generates correctly
- ☐ Payment calculator works

Investment Accounts

- ☐ Investment list displays all accounts
- ☐ Add investment account (ISA, SIPP, GIA, CTF, employee scheme)
- ☐ Edit account details
- ☐ Delete account with confirmation
- ☐ Holdings management (add/edit/delete securities)
- ☐ Account type badges display correctly (ISA blue, SIPP purple, etc.)

Investment Analysis

- ☐ Portfolio analysis tab shows asset allocation
- ☐ Diversification analysis displays metrics
- ☐ Rebalancing calculator shows drift from target
- ☐ Fee analysis shows OCF impact
- ☐ Tax optimisation shows bed & ISA, CGT harvesting opportunities
- ☐ Asset location optimiser recommends account placement
- ☐ Efficient frontier calculation runs
- ☐ Monte Carlo simulation generates probability ranges
- ☐ Performance attribution shows alpha/beta
- ☐ Benchmark comparison works
- ☐ Investment projection chart renders with life event SVG icons
- ☐ Chart expense annotations use raspberry colour (not red)

Pensions

- ☐ Pension list displays all pensions (DC, DB, State)
- ☐ Add DC pension with contribution details
- ☐ Add DB pension with accrual details

- ☐ Add/edit state pension details
- ☐ DC pension holdings management
- ☐ Pension pot projection chart renders with life event icons
- ☐ Annual allowance tracker shows usage (GBP 60,000 limit)
- ☐ Retirement income projection works
- ☐ Required capital calculation works
- ☐ Drawdown simulator works
- ☐ Contribution optimiser generates recommendations

Savings

- ☐ Savings account list displays all accounts
- ☐ Add savings account (cash ISA, instant access, notice, fixed)
- ☐ Edit account details
- ☐ Delete account
- ☐ Emergency fund gauge shows adequacy (3-6 months)
- ☐ ISA allowance tracker shows remaining (GBP 20,000)
- ☐ Interest rate comparison chart works
- ☐ Savings goals display with progress

Cash Overview

- ☐ Cash accounts display with balances
- ☐ Balance trend chart renders
- ☐ Spending breakdown donut chart works
- ☐ Cash insights panel shows analytics

Business Interests

- ☐ Business interest list displays
- ☐ Add business interest (unquoted shares, partnership)
- ☐ Edit details
- ☐ Delete with confirmation
- ☐ Tax deadline tracking works
- ☐ Exit calculation works
- ☐ CGT calculation works
- ☐ Joint ownership fields work

Chattels (Personal Possessions)

- ☐ Chattels list displays
- ☐ Add chattel (art, jewellery, antiques, vehicles)
- ☐ Edit details
- ☐ Delete with confirmation
- ☐ CGT calculation works (chattel exemption under GBP 6,000)
- ☐ Joint ownership fields work

Liabilities

- ☐ Liabilities list displays all debts
- ☐ Add liability
- ☐ Edit details
- ☐ Delete with confirmation
- ☐ Liabilities subtracted from net worth correctly

Joint Account History

- ☐ Joint account activity log displays
- ☐ Shows correct ownership splits
- ☐ Historical changes tracked

6. Protection Module

Policies

- ☐ Protection dashboard loads without ModuleLifeEvents card
- ☐ Protection dashboard loads without Recommended Strategies card
- ☐ Add life insurance policy
- ☐ Add critical illness policy
- ☐ Add income protection policy
- ☐ Add disability policy
- ☐ Add sickness/illness policy
- ☐ Edit policy details
- ☐ Delete policy with confirmation
- ☐ Policy detail view shows all information
- ☐ Policy form modal emits **save** (not **submit**)

Analysis

- ☐ Coverage gap analysis identifies shortfalls
- ☐ Coverage adequacy gauge displays correctly
- ☐ Coverage timeline chart renders
- ☐ Premium breakdown chart renders
- ☐ Recommendations generated based on gaps
- ☐ Scenario builder works (increase coverage, replace policies)

Colours

- ☐ All success indicators use spring green (not green)
- ☐ All warning/info indicators use violet (not blue/amber)
- ☐ All error/danger indicators use raspberry (not red)
- ☐ No blue, green, red, purple, teal, amber, or orange tokens visible

7. Estate Planning Module

Dashboard

- ☐ Estate dashboard loads without ModuleLifeEvents card
- ☐ IHT liability summary displays correctly
- ☐ IHT summary card values align with calculation table values
- ☐ Net worth breakdown for estate purposes
- ☐ Asset/liability lists display correctly
- ☐ Spring/raspberry colours only (no old palette)

IHT Calculations

- ☐ IHT calculation table shows correct figures
- ☐ NRB (GBP 325,000) applied correctly
- ☐ RNRB (GBP 175,000) applied for main residence left to direct descendants
- ☐ RNRB taper applied above GBP 2M estate
- ☐ Charitable rate (36%) applied when 10%+ left to charity
- ☐ Spouse exemption applied correctly
- ☐ Projected IHT values from service not overwritten by controller
- ☐ Joint assets included with correct ownership shares

Will Management

- ☐ Create/edit will
- ☐ Add bequests (specific gifts, residual estate, charity)
- ☐ Will analysis summary displays
- ☐ Intestacy calculator shows distribution under intestacy rules

Gifting Strategy

- ☐ Gift list displays
- ☐ Add gift (annual exemption, PET, CLT)
- ☐ Gifting timeline chart renders
- ☐ Dual gifting timeline shows both spouses
- ☐ Gifting strategy optimiser generates recommendations
- ☐ Annual exemption (GBP 3,000) tracked correctly
- ☐ PET taper rules applied over 7-year period

Trusts

- ☐ Trusts dashboard loads
- ☐ Add trust (discretionary, bare, interest-in-possession)
- ☐ Edit trust details
- ☐ Delete trust
- ☐ Trust detail view shows all information
- ☐ Periodic charge calculation works (10-yearly)
- ☐ Exit charge calculation works
- ☐ Upcoming tax returns displayed
- ☐ Trust strategy recommendations generated

Life Policies (Estate)

- ☐ Life policy list displays
 - ☐ Add life policy for IHT cover
 - ☐ Life cover calculator determines amount needed
 - ☐ Policy strategy recommendations generated
-

8. Goals & Life Events Module

Goals

- ☐ Goals dashboard loads
- ☐ Add financial goal (education, wedding, home, retirement, custom)
- ☐ Edit goal details
- ☐ Delete goal with confirmation
- ☐ Goal progress bar shows accurate percentage
- ☐ Goal countdown shows time remaining
- ☐ Goal contribution streak tracking works
- ☐ Goal milestone tracker displays
- ☐ Add manual contribution
- ☐ Link goal to savings account
- ☐ Link goal to investment account
- ☐ Auto-contribution tracking works when linked account balance increases
- ☐ Goal affordability analysis generates
- ☐ Goal projection chart renders
- ☐ Goals by module view works

Life Events

- ☐ Life event list displays
 - ☐ Add life event (marriage, children, career change, property purchase)
 - ☐ Edit life event
 - ☐ Delete life event
 - ☐ Life event detail view shows information
 - ☐ Allocate goals to life events
 - ☐ Life event icons display on projection charts (SVG overlays)
 - ☐ Life event cash flow impact calculated
-

9. Plans System

Plans Dashboard

- ☐ Plans dashboard shows all 5 plan types with correct palette cards
- ☐ Card colours use violet, spring, raspberry, horizon (no banned tokens)
- ☐ Each plan card shows status and last generated date

Investment Plan

- ☐ Plan generates with executive summary

- ☐ Current situation section shows portfolio analysis
- ☐ Grouped actions listed by account
- ☐ Toggle actions on/off
- ☐ What-if scenario updates reactively when actions toggled
- ☐ Projection chart updates with enabled actions
- ☐ Dynamic conclusion reflects enabled actions
- ☐ PDF export works with correct charts and headers

Protection Plan

- ☐ Plan generates with executive summary
- ☐ Current situation shows coverage analysis
- ☐ Actions listed with coverage gap recommendations
- ☐ Toggle actions on/off
- ☐ What-if scenario updates reactively
- ☐ PDF export works

Retirement Plan

- ☐ Plan generates with executive summary
- ☐ Current situation shows pension analysis
- ☐ Per-pension grouped actions displayed
- ☐ Toggle actions on/off
- ☐ What-if scenario updates reactively
- ☐ PDF export works

Estate Plan

- ☐ Plan generates with executive summary
- ☐ Current situation shows IHT analysis
- ☐ IHT mitigation actions listed
- ☐ Toggle actions on/off
- ☐ What-if scenario updates reactively
- ☐ PDF export works

Goal Plan

- ☐ Plan generates with executive summary for selected goal
- ☐ Current situation shows goal progress
- ☐ Tax-aware funding source dropdowns work
- ☐ Toggle actions on/off
- ☐ What-if scenario updates reactively
- ☐ PDF export works

Holistic Plan

- ☐ Holistic plan aggregates all module plans
- ☐ Executive summary shows personalised narrative with user name
- ☐ Plans included badges display correctly (violet chips)

- ☐ Priority area recommendations show with allocation bars
- ☐ Module sections display for each available module
- ☐ Conclusion summarises all recommendations
- ☐ Priority badge colours use palette tokens (not banned colours)

Shared Plan Components

- ☐ PlanSectionHeader colour prop works (violet, spring, raspberry, horizon)
 - ☐ PlanActionCard shows no dev placeholder text
 - ☐ PlanActionCard toggle switches work
 - ☐ PlanActionsList forwards `update-funding-source` event correctly
 - ☐ PlanMissingDataPrompt uses violet tokens (not blue)
 - ☐ PlanErrorState uses raspberry tokens (not red)
 - ☐ PlanWhatIfMetricRow uses spring/raspberry for positive/negative (not green/red)
 - ☐ PlanConclusion badges use palette tokens
 - ☐ PlanGoalSection badges use spring/violet/raspberry (not green/blue/red)
 - ☐ PlanDashboardCard colour map uses palette tokens
-

10. Risk Profiling

- ☐ Risk profile page loads
 - ☐ Risk questionnaire works (answer all questions)
 - ☐ Risk score calculated and displayed
 - ☐ Risk factor breakdown shows
 - ☐ Risk levels explained page loads with educational content
 - ☐ Risk factor detail page shows specific factor analysis
 - ☐ Risk badge displays correct level
 - ☐ Risk level selector works for preference override
-

11. Actions & Recommendations

- ☐ Actions dashboard loads (no 404 errors)
 - ☐ Actions dashboard uses proper AppLayout
 - ☐ Recommendations loaded from all modules (protection, savings, investment, retirement, estate)
 - ☐ Recommendations sorted by priority (highest first)
 - ☐ Filter by module works
 - ☐ Filter by priority works
 - ☐ Filter by timeline works
 - ☐ Mark action as done
 - ☐ Mark action as in-progress
 - ☐ Dismiss action
 - ☐ Add notes to action
 - ☐ No `/api/api/` double prefix in API calls
-

12. Tax Module

- ☐ UK Taxes dashboard loads (admin only)
 - ☐ Tax status panel shows current allowance usage
 - ☐ Tax calculations tab shows detailed breakdown
 - ☐ Income tax calculated correctly
 - ☐ National Insurance calculated correctly
 - ☐ Dividend tax calculated correctly
 - ☐ All values sourced from TaxConfigService (no hardcoded figures)
-

13. User Profile & Settings

Personal Information

- ☐ View personal details
- ☐ Edit name, DOB, marital status
- ☐ Edit nationality, UK residency status
- ☐ Domicile information section works
- ☐ Profile completeness indicator updates

Income & Occupation

- ☐ View income details
- ☐ Edit employment status, gross income
- ☐ Occupation autocomplete works
- ☐ Income changes trigger risk recalculation

Expenditure

- ☐ View expenditure overview
- ☐ Add/edit expenditure categories
- ☐ Expandable grid rows work
- ☐ Category cards display correctly
- ☐ Expenditure changes affect emergency fund adequacy

Family Members

- ☐ Family member list displays
- ☐ Add family member (child, dependent)
- ☐ Edit family member details
- ☐ Delete family member
- ☐ Family changes trigger risk recalculation

Settings Pages

- ☐ Security settings page loads
- ☐ Security settings uses palette tokens (no hardcoded hex values)
- ☐ MFA section works
- ☐ Password change works
- ☐ Active sessions displayed

- ☐ Privacy settings page loads
- ☐ Consent toggles work
- ☐ Data export request works
- ☐ Data erasure flow works (with verification)
- ☐ Assumptions settings page loads
- ☐ Inflation rate editable
- ☐ Investment return assumptions editable
- ☐ Life expectancy editable
- ☐ Assumption changes affect all projections

Subscription Management

- ☐ Current plan displayed
 - ☐ Billing history accessible
 - ☐ Plan upgrade/downgrade works
 - ☐ Cancellation flow works
-

14. Spouse & Joint Features

Spouse Data Sharing

- ☐ Request spouse permission
- ☐ Accept permission request
- ☐ Reject permission request
- ☐ Revoke permission
- ☐ Spouse financial commitments visible when linked
- ☐ Letter to spouse accessible

Joint Assets

- ☐ Joint property shows for both spouses
 - ☐ Joint savings account shows for both spouses
 - ☐ Joint investment account shows for both spouses
 - ☐ Ownership percentages calculated correctly
 - ☐ Joint assets appear in both users' net worth
 - ☐ Joint assets appear in both users' estate calculations
 - ☐ No duplicate records created for joint ownership
-

15. Document Upload & AI Extraction

- ☐ Document upload modal opens
- ☐ Drag-and-drop upload works
- ☐ File selection upload works
- ☐ Document type auto-detected
- ☐ AI extraction processes successfully
- ☐ Extracted fields displayed for review
- ☐ Confirm extraction populates correct module data

- ☐ Reprocess extraction works
 - ☐ Delete document works
 - ☐ Supported formats: images, PDFs, Excel
-

16. AI Chat Assistant

- ☐ Chat button visible on authenticated pages
 - ☐ Chat panel opens
 - ☐ Send message and receive response
 - ☐ Conversation history persists
 - ☐ New conversation creation works
 - ☐ Delete conversation works
 - ☐ Responses reflect user's financial context
 - ☐ Preview mode shows simulated responses
-

17. Payments & Subscriptions

Checkout

- ☐ Pricing page displays three tiers with correct prices
- ☐ Plan selection works
- ☐ Checkout page loads Revolut embedded checkout
- ☐ Card payment processes successfully
- ☐ Payment confirmation redirects to dashboard
- ☐ Subscription activated after payment

Trial

- ☐ Trial countdown banner shows days remaining
- ☐ Trial expiry triggers appropriate behaviour
- ☐ Trial status API returns correct data

Billing

- ☐ Billing history shows past payments
 - ☐ Subscription cancellation flow works
 - ☐ Data retention overlay shown during cancellation
 - ☐ Data purge option works when cancelling
-

18. Admin Panel

User Management

- ☐ Admin dashboard loads with stats
- ☐ User list displays all users
- ☐ Create new user
- ☐ Edit user details

- ☐ Delete user
- ☐ Assign roles to users

Action Definitions

- ☐ Protection action definitions CRUD works
- ☐ Investment action definitions CRUD works
- ☐ Retirement action definitions CRUD works
- ☐ Enable/disable action toggle works

Tax Configuration

- ☐ View tax configurations for all years
- ☐ Create new tax configuration
- ☐ Edit tax values
- ☐ Activate tax configuration for current year
- ☐ Duplicate configuration to new year

Database

- ☐ Database backup works
 - ☐ Database restore works (test in non-production only)
-

19. Preview Mode (All 7 Personas)

Persona Loading

- ☐ Landing page persona selector displays all 7 personas
- ☐ **Young Family** (James & Emily Carter) loads correctly
- ☐ **Peak Earners** (David & Sarah Mitchell) loads correctly
- ☐ **Widow** (Margaret Thompson) loads correctly
- ☐ **Entrepreneur** (Alex Chen) loads correctly
- ☐ **Young Saver** (John Morgan) loads correctly
- ☐ **Retired Couple** (Robert & Patricia Williams) loads correctly
- ☐ **Student** (Janice Taylor) loads correctly

Preview Behaviour

- ☐ Preview banner visible at top of page
- ☐ **v-preview-disabled** elements show disabled state with tooltip
- ☐ Write operations return fake success (no actual data persisted)
- ☐ Calculations and analysis run normally (read-only endpoints work)
- ☐ Switch between personas works
- ☐ Exit preview mode works
- ☐ No 403 errors on any preview page

Per-Persona Verification

For each persona, verify:

- ☐ Dashboard loads with populated data
 - ☐ Net worth figures are reasonable for persona profile
 - ☐ Protection module shows relevant policies
 - ☐ Savings module shows accounts and emergency fund status
 - ☐ Investment module shows appropriate portfolio
 - ☐ Retirement module shows relevant pensions
 - ☐ Estate module shows IHT calculations
 - ☐ Goals module shows persona-appropriate goals
 - ☐ Plans generate without errors for each plan type
-

20. Design System Compliance

Colours

- ☐ Page background is eggshell (#F7F6F4) throughout
- ☐ Primary CTAs use raspberry-500 (#E83E6D)
- ☐ Text uses horizon-500 (#1F2A44)
- ☐ Success states use spring-500 (#20B486)
- ☐ Warning/focus states use violet-500 (#5854E6)
- ☐ Muted text uses neutral-500 (#717171)
- ☐ Borders use light-gray (#EEEEEE)
- ☐ No amber, orange, blue, green, red, purple, or teal in Plans components
- ☐ No hardcoded hex values in component style blocks
- ☐ Chart colours sourced from `designSystem.js` constants

Typography

- ☐ Primary font: Segoe UI (system font)
- ☐ Fallback font: Inter (Google Fonts)
- ☐ Display/H1 weight: 900 (Black)
- ☐ H2-H5 weight: 700 (Bold)

Components

- ☐ Form inputs have violet focus rings
- ☐ Success messages use spring green
- ☐ Error messages use raspberry
- ☐ Buttons follow palette (raspberry primary, horizon secondary)
- ☐ Cards use consistent border and shadow patterns
- ☐ Badges use correct palette (account type badges unchanged)
- ☐ Spinners use `border-horizon-200 border-t-raspberry-500` pattern

Logos

- ☐ Navigation bar shows dark logo (`LogoHiResFynlaDark.png`)
- ☐ Footer shows light logo (`LogoHiResFynlaLight.png`)
- ☐ Login/Register pages show hi-res logo
- ☐ Favicon loads correctly

21. Content & Copy Rules

No Scores (Rule 12)

- ☐ Financial Health Overview shows descriptive labels only (Good/Fair/Needs attention)
- ☐ No numeric ratings (/100, /10) visible anywhere in UI
- ☐ No score badges, score metric cards, or score-formatted values
- ☐ No score-based narrative text

No Acronyms (Rule 10)

- ☐ "Annual Allowance" not "AA"
- ☐ "Stocks & Shares" not "S&S"
- ☐ "Defined Benefit" not "DB" in user-facing text
- ☐ "Defined Contribution" not "DC" in user-facing text
- ☐ "Money Purchase Annual Allowance" not "MPAA" in user-facing text
- ☐ ISA remains abbreviated (exception)

British Spelling (User-Facing)

- ☐ "Optimisation" not "Optimization"
- ☐ "Customise" not "Customize"
- ☐ "Analyse" not "Analyze" in UI labels

22. Responsive & Cross-Browser

Mobile (< 768px)

- ☐ Side menu collapses to mobile toggle
- ☐ Dashboard cards stack vertically
- ☐ Forms are usable on small screens
- ☐ Charts resize appropriately
- ☐ Modals are scrollable and closeable
- ☐ Navigation is accessible

Tablet (768px - 1024px)

- ☐ Layout adapts to medium screens
- ☐ Cards use appropriate grid layout
- ☐ Charts render at correct size

Desktop (> 1024px)

- ☐ Full layout with side menu
- ☐ Cards use multi-column grid
- ☐ Charts render at full size

23. Error Handling & Edge Cases

- ☐ Empty state displays when no data exists for a module
 - ☐ API errors show user-friendly messages (not raw error objects)
 - ☐ Network timeout shows retry option
 - ☐ 401 redirects to login
 - ☐ 403 shows appropriate access denied message
 - ☐ 404 shows not found page
 - ☐ 429 (rate limit) handled gracefully
 - ☐ Form validation errors display inline
 - ☐ Modal stays open on save error, closes on success
 - ☐ Currency values display correctly (GBP with commas)
 - ☐ Percentage values display correctly
 - ☐ Zero values handled (no division by zero)
 - ☐ Negative values displayed appropriately
 - ☐ Very large values formatted correctly (GBP 999,999,999.99 max)
 - ☐ Date formats correct (DD/MM/YYYY for display, YYYY-MM-DD for inputs)
-

24. Performance

- ☐ Dashboard loads within 3 seconds
 - ☐ Module pages load within 3 seconds
 - ☐ Plan generation completes within 10 seconds
 - ☐ Monte Carlo simulations complete within 15 seconds
 - ☐ No visible layout shift during loading
 - ☐ Loading spinners display during data fetches
 - ☐ No console errors in browser developer tools
 - ☐ No 404s for assets or API calls
-

25. Public Pages

- ☐ Landing page loads without authentication
 - ☐ Persona selector works on landing page
 - ☐ Pricing page displays correct tiers and prices
 - ☐ Calculators page loads with working calculators
 - ☐ Learning centre loads with educational content
 - ☐ About page loads
 - ☐ Security page loads
 - ☐ Privacy policy page loads
 - ☐ Terms of service page loads
 - ☐ Sitemap page loads
 - ☐ All public pages use PublicLayout (not AppLayout)
-

26. GDPR Compliance

- ☐ Privacy settings show consent toggles
- ☐ Consent changes recorded with history
- ☐ Data export generates downloadable file (CSV/JSON)
- ☐ Data erasure initiates with email verification
- ☐ Data erasure requires MFA verification if enabled
- ☐ Data erasure confirmation step works
- ☐ Data erasure can be cancelled
- ☐ Audit logs track all consent changes

27. Bug Reporting

- ☐ Bug report modal accessible from navigation
- ☐ Bug report form submits successfully
- ☐ User context included in report
